

No Difference between the quality dental services performed on-site with our mobile equipment and standard dental offices.

Use of a **Dental Chair**. For quality exams and treatment, patients need to be fully reclined in a dental chair. *“Sit-Up Exams” are not quality exams and harder to provide quality treatment.*

Our **High-Powered Dental Lights** to assist in our exams and treatment. *“Flashlight Exams” do not provide the high-powered, focused light needed for professional results.*

Professional Dental Prophylaxis (teeth cleaning). We use real dental handpieces – the same used in standard dental offices. *“Toothbrush Cleanings” may meet minimal standards, but hardly qualify as a professional dental cleaning.*

Prescription Strength Toothpaste and **Mouthwash** sent home with patients (as needed). *“an ounce of prevention...” No other mobile company takes this additional step to help patients that need a little extra help on a daily basis.*

Quality Toothbrushes and **Toothpaste**. Children sent home with high-quality toothbrushes and toothpaste. *Cheap toothbrushes guarantee poor results!*

WHY CHOOSE THE DENTAL SAFARI COMPANY

Follow-Up Care In Our Mobile Dental Trailer

Our mobile dental trailer that we bring to schools is a fully functioning dental office!!

Same professional dental treatment as a standard dental office. No long commutes. No long lines. Simply make an appointment, parents/guardians check their kid out of class, and walk to the dental office at school!!

Other companies may pick-and-choose some follow-up cases, but the Dental Safari Company has follow-up care included in our business model. It is a big part of the total dental care we provide to patients!!

One factor in children’s poor dental health is access – simply finding dentists who accept the state medical card. Fewer and fewer private dentists accept the medical card, and commutes are getting longer and longer.

We Continue To Grow!

At well over 100 schools, the word is getting out about our professional staff, high-quality treatment, and unique follow-up services.

Testimonials

Read a few testimonials on our website. Talk to other schools/administration. All of our accounts love our dental teams and the quality service we provide.

Chances are:

When you use us, you will recommend us!!
